SUMMARY

Computer Science undergraduate at Riphah International University with a strong interest in **web and frontend development**. Skilled in programming fundamentals and web technologies including Java, HTML, CSS, JavaScript, PHP, and MySQL. Experienced in building academic projects such as desktop applications, games, and Arduino-based hardware systems. Seeking opportunities to grow as a **Web Developer / Frontend Developer** while contributing to real-world software projects.

EDUCATION

Bachelor of Science in Computer Science (Expected) **2024 – 2028**
Riphah International University, Islamabad
GPA: 3.74 / 4.0
Current Status: 4th Semester (Half Completed)

Intermediate (FSc / ICS)
IMCG F-10/2, Islamabad

TECHNICAL PROJECTS

Perfume E-Commerce Website (Web Development Project) **2026**

- Developing a professional e-commerce website for perfume products.
- Implementing product listing, user authentication (login/signup), and responsive UI design.
- Using **HTML, CSS, JavaScript, PHP, and MySQL** for full-stack web functionality.
- Designing database structure for product management and user data handling.

Password-Based Door Lock System (Computer Architecture – Proteus Simulation) **2026**

- Designed and simulated a digital password-based door lock system using **Proteus**.
- Implemented logic for password verification and secure access control.
- Applied concepts of **digital logic and computer architecture** for system functionality.

SkillSpark Educational Application (Admin-Based , Java Swing) **2025**

- Developed a subject-based educational desktop application using **Java Swing**.
- Implemented quizzes, notes, and progress tracking features.
- Applied **Object-Oriented Programming (OOP)** principles for modular design.

Tic-Tac-Toe Game **2025**

- Built an interactive game implementing logical game rules and win-detection algorithms.
- Designed a simple user interface and handled real-time user input.

Wearable Safety Device (Arduino, Ultrasonic Sensor) **2025**

- Developed a hardware prototype using **Arduino and ultrasonic sensors**.
- Implemented distance detection for obstacle awareness and safety alerts.

LEADERSHIP & ACTIVITIES

General Secretary – Marketing Society **March 2026-Present**
Riphah International University

- Assist in organizing university events and marketing activities.
- Coordinate communication between society members and management.
- Support planning and promotion of society initiatives.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, PHP | **Web Technologies:** HTML5, CSS3 | **Database:** MySQL | **Hardware:** Arduino, Ultrasonic Sensors | **Concepts:** Object-Oriented Programming (OOP), Problem Solving, DLD, CRUD | Tools: Git, GitHub, Figma
